

eCabinet. *Connector for* eCopy ShareScan OP: Enhancing your Productivity

Introducing **eC2eC**, the eCabinet. *Connector for* eCopy ShareScan OP

eC2eC facilitates indexing of documents sent to the eCabinet, leveraging the features and interface of eCopy ShareScan OP, integrated with your Multi-functional Peripherals: "MFPs."

Scanned documents are easily indexed using eCopy's ShareScan OP user-friendly interface and sent to the appropriate eCabinet folder. Index key search values are quickly entered with full support of eCabinet field constraints, including restricted fields.

Key Benefits:

- Integrates with existing eCopy ShareScan OP installations
- Leverages the strengths and versatility of the eCabinet
- Combines the strengths and functionality of two award-winning products

Need additional functionality?

- Upgrade to eC2eC + ECIU, with features such as bar code recognition, auto batch separation, and front-end conversion to searchable PDFs.
-
